Work Experience

Industrial Training at Air India Ltd   **January 2019 - May 2019**
Digitization of current paper based fuel and oil revenue system (FOIL).

Summer Internship at Air India Ltd   **July 2019 - August 2018**
Improvement of Customer Relationship Management System for Non-Frequent Flier Member Passengers.

Content Creator and Moderator at www.gamersrev.com   **From June 2017**
Worked as a Content Creator and Moderator and helped in the development of the website.

Project work

Digital Representation Of FDR's   **January 2019 - May 2019**
[HTML5; CSS3; PHP; MySQL]
Developed a web based application using HTML5, CSS3, PHP and MySQL which lets an employee login to the company's intranet to access, view, retrieve, edit and add Fuel Deposit Receipts (FDR's) to improve the process of reviewal and approval of payments to the fuel companies providing fuel to the airlines on the ground.

Improvement of Customer Relationship Management System for Non-Frequent Flier Members.   **July - August 2018**
[Research based project on marketing and CRM]
Developed a primary algorithm to segment customers on the basis of their current and potential value in order to serve them better. The algorithm can be integrated in existing models of Airline Customer Evaluation System.

The History and Development of Modern Internet   **November 2017 - Dec 2017**
[Research based project on the existing and previous versions of web development languages]
Did a research project on The History and Development of Modern Internet and how it evolved from earlier versions into the interactive and user friendly internet we today are familiar with under Professor Bhawna Aurora.

Login and Registration Project

[HTML5, CSS3]   **June 2017 - July 2017**

Developed a Login and Registration webpage to allow the visitors to create an user ID and password to sign up to the website or login to their account if already registered previously.

E-Sales Project   **November 2016 - Dec 2016**

[C, C++]

Developed a sales and inventory management program to manage details of payment, inventory, purchasing and supplies. The purpose of the project is to reduce manual work for managing the payment, inventory and sales.

Certifications

Digital Marketing   **:** Google Certified Digital Marketing Expert   **25th May 2019**

Other Project

Volunteered at Swachalay, an NGO aimed at creating a cleaner environment.
